# 3 Big ports

Guinea has a coastline of 300 km and a continental shelf among the largest in West Africa extending up to 80 nautical miles offshore.

Guinea has 3 major Ports:

- ▷ The Autonomous port of Conakry: length of 5000m, width of 150m, and deep of 10.50m. It is the main port of Guinea and has a container terminal, a oil wath and a mining terminal
- ▷ The mining port of Kamsar : Exclusively dedicated to the mining activity in the Boke - Kamsar region
- ▷ The Oil and Mining Port of Forecariah: exclusively dedicated to the Simandou mining projet

# CURRENT PROJECT - PORT OF CONAKRY

## ▷ Extension of the port of Conakry

This development project concerns the eastern part of the port, it will provide docking and storage facilities to the country. The extension includes the construction of three platforms with a total length of 846 meters, a 670-meter penetrating road on the CBK railway and a 550-meter interchange for the motorway connection as well as two Parking for 600 trucks.

## ▷ Removal of ship wrecks at the port of Conakry

- ▷ Renovation of the docks in the port of Conakry
- ▷ Construction of an industrial zone Kourria in Coyah
- ▷ Construction of a fishing port in “Côte de l’Herbe” in Kamsar
