

80 Years of Catalysing Africa in Motion Anniversary Reception

For eight decades, NABC has stood at the crossroads of two dynamic economies, serving as the trusted bridge between the Dutch and African private sectors. Through introductions made, trade missions led, and platforms created for dialogue and deal-making, we have consistently catalysed the trade, investment, and partnerships that our members have gone on to build, turning opportunity into lasting impact across the continent.

This September, we invite our members, partners, and stakeholders to join us as we mark this milestone: *80 years of confidence in African business.*

Under the theme “80 Years of Catalysing Africa in Motion,” our Anniversary Reception will bring together business leaders who have shaped, and continue to shape, the Dutch-African business landscape. It’s a moment to celebrate the relationships built, the deals made, and the future we’re building together, as we look ahead to the next chapter of connecting ambition with opportunity.

Join us on the **18th of September**, from **15:00-21:00** at **Titaan, The Hague**, as we celebrate eight decades of connection, collaboration, and confidence, and set the course for the next 80 years of Africa in motion.
