

Grow your Business in Ghana's Agribusiness Sector: Join the EU Trade Mission to Ghana, 26-30 October 2026

#GlobalGateway #TeamEurope

Ghana's agribusiness sector is at a high-growth phase, creating strong demand for European solutions in **sustainable farming, digital innovation, climate-smart production, value addition and post-harvest efficiency**. For European companies ready to explore new markets, build local partnerships and turn expertise into tangible business opportunities, this mission offers a direct gateway into one of West Africa's most dynamic agribusiness ecosystems.

This mission is powered by the Green, Digital and Inclusive Private Sector Development action, co-funded by the European Union, The Kingdom of the Netherlands and the French Ministry of Foreign Affairs, which is accelerating sustainable agribusiness and digital innovation across Ghana's agricultural value chains.

Reasons to Join:

1. Tailored matchmaking with at least five potential Ghanaian counterparts (of your choice).
2. Access to the Agribusiness Trade Fair (organised by [EuroCham Ghana](#)) to meet many more prospective partners (own exhibition stand).
3. Relevant company visits to explore real market opportunities.
4. A high-level networking reception at the residence of the EU Ambassador, bringing together approximately 150 Ghanaian companies, European companies based in Ghana, and key ecosystem stakeholders.

Who should join?

This mission is for European companies ready to turn their agribusiness solutions into real opportunities in Ghana's fast-growing market, particularly in:

Green and climate-resilient agribusiness

Climate-smart farming, renewable energy for processing, irrigation, circular solutions, waste-to-energy, biochar, water and waste management, and sustainability certification.

Digital and traceability solutions

Satellite monitoring, GIS mapping, blockchain traceability, IoT sensors, precision agriculture, digital certification systems, farmer platforms and agribusiness fintech.

Food processing and value addition

Drying, juicing, purees, concentrates, ingredient manufacturing, cashew-based products, ginger extracts, food safety systems, quality certification and export compliance.

Cold chain, packaging and post-harvest efficiency

Solar-powered cold rooms, reefer systems, packhouse technology, sorting and grading systems, recyclable or compostable packaging, and solutions that reduce post-harvest losses.

Meet the right partners in Ghana

Participating companies will gain direct exposure to Ghanaian buyers, processors, exporters, cooperatives, innovation hubs and relevant public and private sector partners through targeted matchmaking, the Agribusiness Trade Fair, company visits and field exposure.

Participation Fee

- €650 (excl. VAT) per company for one participant
- €325 (excl. VAT) for each additional participant

Travel and accommodation at participants' own expense.

Ready to take action?

Please fill in the registration form ([click here](#)) and we will contact you as soon as possible.
