

## WEBINAR: DOING BUSINESS IN NIGER

What support can the Governments of the Netherlands and Niger offer Dutch companies that want to invest or set up public-private projects in Niger? And what can Dutch companies learn from other businesses that are already successful in the country, while adding value locally? What are the economic effects of COVID-19, as well as the deteriorating security situation in the Sahel, on doing business in Niger - and how can companies mitigate risks? In this webinar, expert speakers will give their views on these and more topics and participants are encouraged to ask any question they have.
