

ZAMBIA-NETHERLANDS TRADE AND INVESTMENT FORUM

28 MAY 2024 | 13:00 - 18:00 | MALIETOREN, THE HAGUE

Zambia, situated in Southern Africa, boasts a burgeoning economy with over 20 million inhabitants, predominantly youth. Rich in natural resources, wildlife, and scenic landscapes, including the majestic Victoria Falls, it's a standout destination. With a robust GDP of approximately US\$21 billion and stable macroeconomic fundamentals, Zambia offers a favourable investment climate. Positioned as a trade and investment hub, Zambia's membership in COMESA, SADC, and AfCFTA enhances its regional and continental economic ties. Renowned for its investor-friendly policies, stable political environment, and ease of doing business, Zambia remains a prime investment destination since gaining independence in 1964.

In a collaborative effort, the Netherlands-African Business Council (NABC) and the Embassy of the Republic of Zambia in Brussels have united to present the **Zambia-Netherlands Trade and Investment Forum**, taking place on the **28th of May 2024** at the **Malietoren, The Hague**. The Forum will explore trade and investment opportunities within the key sectors of **agriculture and agro-logistics, renewable energy, and waste management**.
